

September to June

Teacher Ambassador Program (TAP)

508 lessons delivered

12,004 educational experiences

197 schools visited

29 lessons delivered in French

26 lessons delivered in Northern communities

The lesson was engaging for the students. It touched on curriculum topics that are real-world scenarios in the agriculture and food industry. I value that this program is free and provides students with an informative and authentic learning experience.

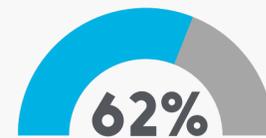

- Grade 9 teacher from Durham District School Board following an environmental initiatives lesson

I learned that, in order to feed people more effectively, we are using technology in agriculture to grow fresher, healthier food that is available all year round.

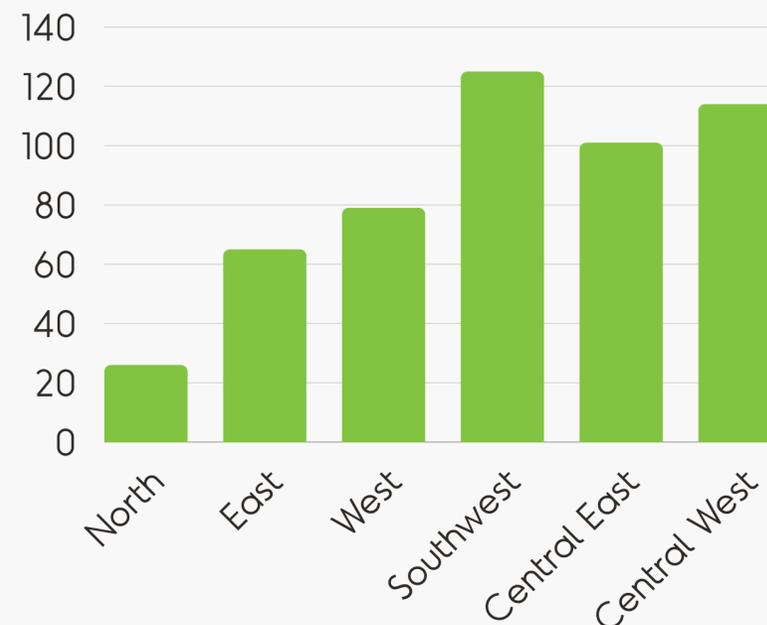

- Grade 7 student from York Region District School Board following a technology & innovations lesson

Following a TAP lesson,

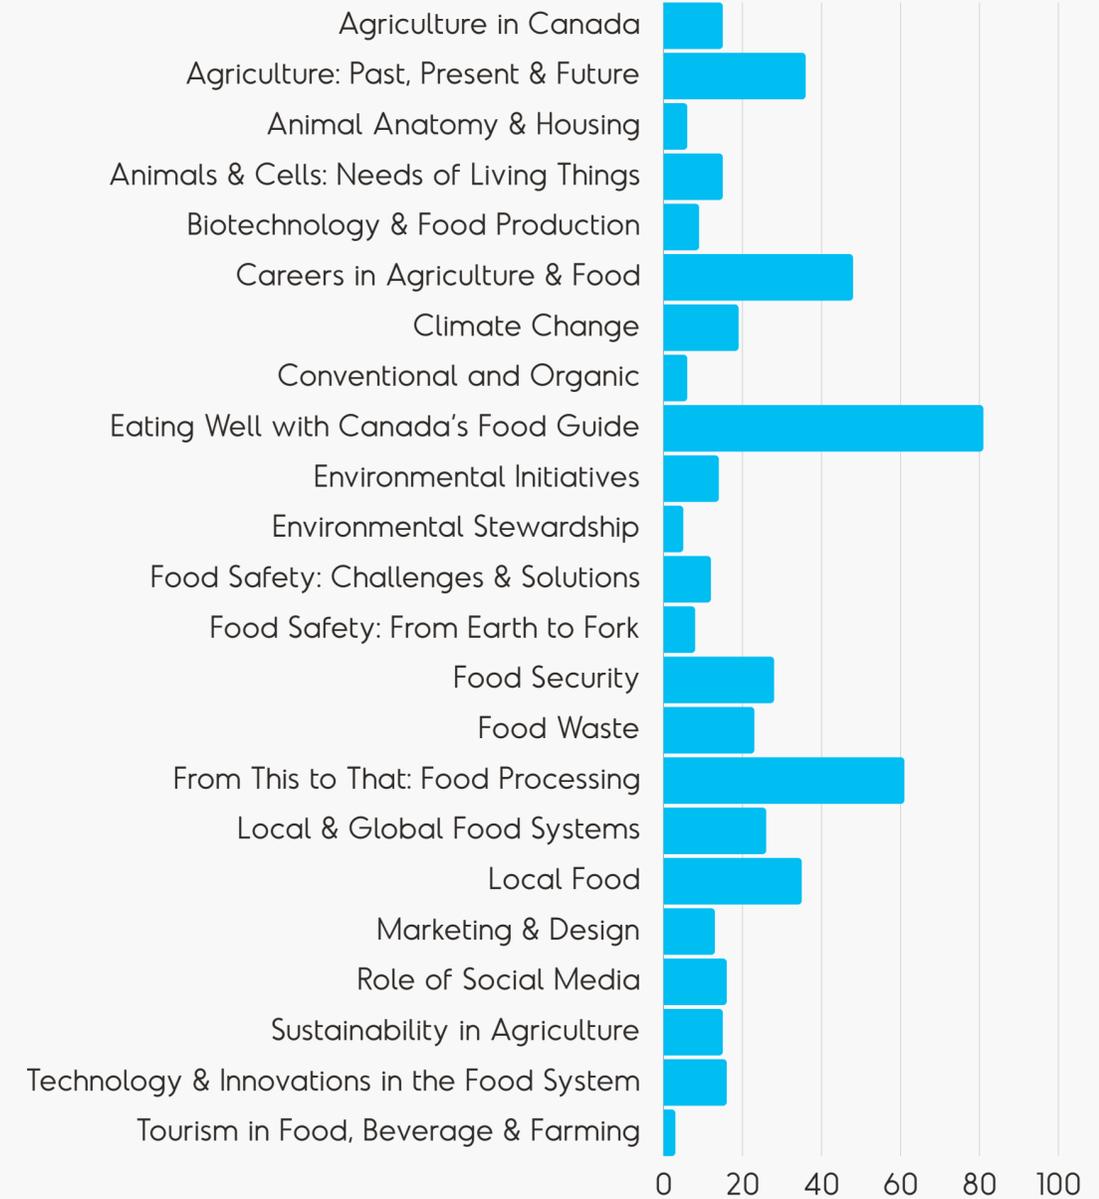

of students are interested in learning more about agriculture and food.

Lessons Delivery by Region

Lessons Delivery by Topic

Following a TAP lesson,

of teachers agree that Canada's agriculture and food sector offers a wide variety of career opportunities in science, technology, engineering, art and math areas.

THE IMPACT OF YOUR SUPPORT

Thank you for making this school year a huge success!
