

## Teacher Ambassador Program (TAP)

**621**  
lessons delivered

**15,522**  
educational experiences

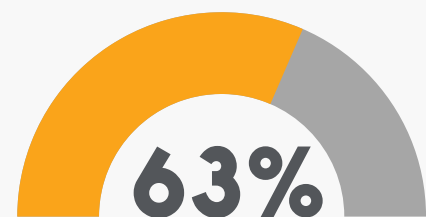

**256**  
schools visited

**54**  
schools boards reached

Following a TAP lesson,

of students are interested in learning more about agriculture and food.

*The lesson was very informative. It was interesting to learn how modern technology is used in various ways within our food system.*

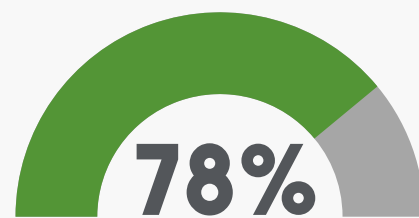

- Grade 12 student from Greater Essex County District School Board following a technology lesson

*My students learned that the interpretation of 'local' can have many meanings and it is up to them to make informed decisions when purchasing food. This lesson made them think more about their choices and the impact it has on farmers, the environment and the economy.*

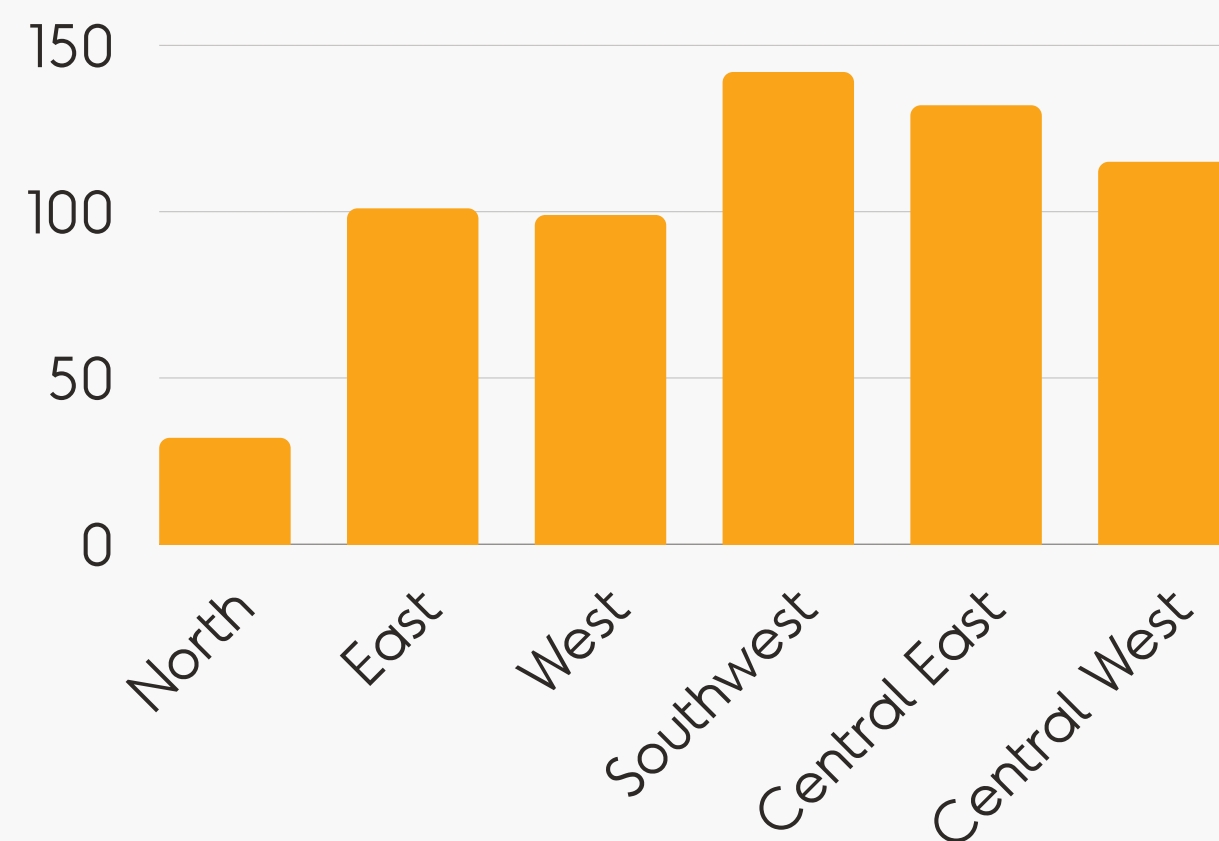

- Grade 9 teacher from Hastings and Prince Edward District School Board following a local food lesson

Following a TAP lesson,

of teachers agree that Canada's agriculture and food sector offers a wide variety of career opportunities in science, technology, engineering, art and math areas.
