Following a Virtual Field Trip,

of teachers agree that Virtual Field Trips increased their students' knowledge of our agriculture and food system

Activity Kits

15,257
educational experiences

My students loved learning virtually from an expert and experiencing a small glimpse of our world outside the classroom and our community. They were engaged and took away at least one new piece of knowledge.

- Grade 2 teacher

Virtual Field Trip Activity Kits have greatly supported my students' learning. Connecting these topics to real-life farms in Ontario allows us to have discussions and share with others visiting our classroom.

- Grade 3 teacher
